

Antony Galvan
U.S.A. MASTERS NATIONAL CHAMPION

EXTENDING THE MOMENT. This is the one and only N.O.-XPLODE™, the formula, the preparation and the experience. Inside every gram of powder lies an extreme power source that is ready to be sparked. This is complicated machinery that nutritional science has crystallized, compressed and encoded for your benefit. Now it's ready to unfold, right before your eyes. Inside a glass, water sparks a chain reaction, as the mixture ignites. It's alive and a story is beginning to unfold. Chemical forces become rotational, as neurological and hydraulic forces begin to lift off; all while awareness, action and excitement merge as one. The potent, one-of-a-kind technology finds routes to take weakness and turn it into high-tensile strength, intense focus and explosive performance, leaving fatigue behind. Extend the moment and experience the phenomenon that is N.O.-XPLODE™, BSN's #1 selling extreme pre-training energy and performance igniter.
